AIRPORT DEVELOPMENT ORDINANCE

(Ordinances 3 of 2006, 11 of 2007 and 2 of 2008)

AN ORDINANCE TO FACILITATE THE DESIGN, CONSTRUCTION AND OPERATION OF AN AIRPORT IN ST. HELENA, AND FOR PURPOSES CONNECTED THEREWITH OR INCIDENTAL THERETO.

Commencement

[1 March 2006]

PART I
Preliminary**Short title and commencement**

1. This Ordinance may be cited as the Airport Development Ordinance 2006 and shall come into force on such day as the Governor may appoint by notice in the *Gazette*.

Interpretation

2.² (1) In this Ordinance, unless the context otherwise requires—

“**airport**” means any area of land designed, equipped, set apart or commonly used for affording facilities for the landing and departure of aircraft and services and facilities for use in connection with the landing and departure of aircraft and includes any area or space, whether on the ground, on the roof of a building or elsewhere, which is designed, equipped or set apart for affording facilities for the landing and departure of aircraft capable of descending or climbing vertically;

“**Airport Development Area**” means any area designated as such in accordance with section 4;

“**Airport Development Order**” means an Order made under section 4;

“**development**” means the carrying out of a building, engineering, or other physical operation in, on, over or under any land that has been designated to be an Airport Development Area;

“**infrastructure**”, in the definition of ‘project’, has its ordinary English meaning but (for the avoidance of doubt) does not include anything in the nature of a shop, restaurant, bar, hotel, or similar facility;

“**project**” means the design, construction and operation of an airport and associated services and infrastructure in St. Helena;

“**services**”, in the definition of ‘project’, means services provided in or adjacent to the airport for facilitating the handling of passengers and freight or for the comfort or convenience of employees, passengers and other visitors, and includes (without prejudice to the generality) shops, restaurants, bars, and car parks.

(2) For the avoidance of doubt, the ‘project’ includes the construction of a jetty in Ruperts Bay and a new Bulk Fuel Store in Ruperts Valley, and the ‘associated infrastructure’ (without prejudice to its generality) includes the construction of new roads.

(3) References in this Ordinance to ‘land’ include land covered by water.

² Section 2 amended by Ord. 11 of 2007

Contractual arrangements

3. The Governor in Council may enter into a contract, or a series of contracts, for the purpose of facilitating the project.
