

PUBLIC NOTICE

REVISED FEES AND CHARGES

With effect from 1 April 2016, the following fees and charges are payable by a person (and his/her dependant* and children up to 18 years of age**) who:

- (i) has St Helenian status **and** is **ordinarily resident** on St Helena (refer to *Note A* below);
- (ii) is present in St Helena, has St Helenian status and can provide proof of contract of employment for one year on St Helena; or
- (iii) is present in St Helena in fulfillment of a contract of employment **directly** with the St Helena Government, of at least one year and approved by the Head of Human Resources for the St Helena Government; or
- (iv) is a resident of the United Kingdom who requires **emergency** medical attention. UK residents seeking medical treatment that is **not an emergency** will be required to pay the medical fees and charges applicable to visitors to the island. Emergency medical attention is defined as medical attention received on island and **does not cover medical evacuation off island**.
- (v) has St Helenian status, is ordinarily resident on Ascension Island and on leave on St Helena

[Note A: *In the case of returning St Helenians, it should be noted that whilst local medical treatment may be obtained at the following rates, there is no provision for SHG-funded overseas medical referrals within the first six months of stay. The need to obtain Medical Insurance for this period is therefore recommended.*

When assessing the ordinary residence status of a person seeking local Medical Services, the relevant body will need to consider whether they are: living lawfully on the Island of St Helena voluntarily and for settled purposes as part of the regular order of their life for the time being. The concept of 'settled purpose' has been developed by the courts: There must be an identifiable purpose for their residence here, there can be one purpose or several, and it may be for a limited period. The purpose of living in St Helena must have a sufficient degree of continuity to be properly described as 'settled'. Ordinary residence can be of long or short duration. A person can be ordinarily resident in more than one country at once.

It is important to note that, since 6 April 2015, non-EEA nationals who are subject to immigration control are now no longer able to be considered as ordinarily resident in the UK, unless they also have the immigration status of 'indefinite leave to remain' (ILR) at the time of treatment; or, in other words, have the right to live here permanently.]

1. MEDICAL

* Dependant – defined as being the spouse or life partner having been in such a relationship for at least three months with someone who holds St Helenian status (taken from 'Partners and Families' on SHG website). Proof may be required and under such circumstances, the Health Directorate will apply the same criteria as the Immigration Department to determine eligibility.

** Persons up to the age of 16 years and persons aged 17-18 years receive free medical treatment if they are still in full time education

Dr Darren Clarke
 Director
 Health Directorate
