

Guidance note

Seed potato – Lady Balfour variety

Origin	UK		
Description of tubers	Uniform oval to long-oval tubers with a smooth skin and medium-shallow eyes, skin is parti-coloured red and the flesh is white.		
Cropping details	Early maincrop. Plants are very tall.		
Yield	Lady Balfour is a very high yielding organic variety.		
Resistance characteristics	Scab	Late blight	Early blight
	Moderate resistance	Resistant	Not noted
Cooking quality	General purpose, salad type.		
Keeping quality	Dormancy is extremely long, allowing long term storage without the use of sprout suppressants.		
Any other notes	Vigour is exceptional under low fertility conditions.
