

## Introduction

On 3 May 2017, history was made on St Helena, when a charter plane sourced by Air Partner successfully transported 60 passengers from Cape Town affected by the cancellation of two RMS voyages, and landed at St Helena Airport.

A Dietician took up post in May within Health Directorate, and has started seeing referred patients, along with a School Nurse who started with the Schools Health service on St Helena.

15% of our social housing stock has considerably improved over the past year and HTH CDA site works are on-going. The formal launch of the St Helena Community College was held on 17 May 2017 and attracted additional Interest and enrolment with 521 individuals now registered on courses.

Actual revenues from taxation and customs dues are lower than projected for the year to date.

## Summary of Performance

Some of the headlines for May are as follows:

- 96% of total population of 2 year olds up to date with vaccinations
- 19.33% of energy generation from renewables with 7 interruptions.
- 2254 episodes of patients accessing primary health care, an increase from previous month.
- 42% of school children are obese or overweight (28% overweight, 14% obese)
- 136 people now access Home Care
- 521 individuals now registered for courses at the Community College
- 100% of Report It, Sort It reports acknowledged and allocated for action.
- 100% of Safeguarding (children's) assessments completed within timescales

Key Revenue and Expenditure Variances					<p>Revenue budget and actuals were broadly in line. The Analysis of Revenue Report shows an adverse budget variance of £63k which is mainly due to taxation and interdepartmental recharges.</p> <p>The adverse expenditure variance is mainly due to the Head Shipping. As reported in the previous period, the reported overspend of £369K relates to necessary expenditure to meet expenses in advance of settlement monies from insurance.</p>
Capital Programme Summary					<p>Capital Programme extended by 6 months (April-September 2017 ) with a value of £1.4m. Proposals are being considered by Elected Members following DFIDs advice to fund specific areas for development. However, significant concern remains that key projects will not be delivered due to the gap in funding to deliver the identified projects which poses a considerable risk to SHG.</p>

## METHODOLOGY

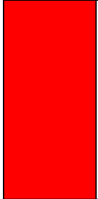

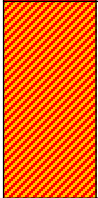

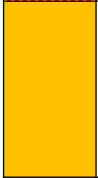

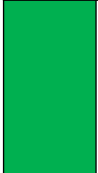

For the Performance Tracker information is provided in five columns.

- The first ("**Overall Performance Progress**") is an indicator of progress over the past month relative to expectations at the beginning of the year.
- The second ("**Monthly Change**") highlights whether this progress is an improvement, or otherwise, from the previous month.
- The third ("**Leading Indicator**") aims to give a snapshot of how progress is likely going forward and provide a early warning system for potential issues.
- The fourth ("**Monthly Change**") highlights change against the Leading Indicator.
- The fifth ("**Commentary**") aims to provide a succinct overview of each area.
