SHCC
St Helena Community College

Coursera@SHCC
July 2018

Gain access to training from the best institutions around the globe.

Coursera brings a world of learning opportunities to St Helena.

Coursera@SHCC

What is Coursera?

Now available through SHCC

Coursera is an online learning platform that offers courses, specializations, and degrees. Coursera partners with more than **150 universities** from about **30 countries** around the world to provide a wide range of learning opportunities.

Coursera offers unlimited participation and open access via the internet to offer online courses in a vast range of subjects. **More than 2700 courses** are currently available in areas such as engineering, humanities, medicine, biology, social sciences, mathematics, business, computer science, digital marketing, data science, and others. Through Coursera, learners in St Helena can gain ready access to training provided by the best institutions from around the world.

Learning with Coursera

Coursera is an online learning provider. Students who sign up for the Coursera@SHCC programme are able to use SHCC IT resources to complete their courses. The SHCC IT suite and other IT facilities are available for booking for these courses from 4 pm onwards.

Most courses are delivered through online video lessons, although there may also be readings, slideshows and other activities available. Progress is easy to see, and learners are encouraged (or sometimes required) to participate in online forums with other course members around the world.

Who can sign up?

These courses are open to everyone, but learners should make sure they have appropriate background knowledge to benefit from the course. Many of Coursera's offerings are intended as high-quality continuing professional development. Most of the courses offered do not offer credit toward university degrees, but they offer a wide range of valuable skills and training. Many major corporations around the world rely on Coursera as a key provider of professional development training.

What's available?

With well over 2000 courses on offer, there are far too many to list! If you are interested in registering from one of these courses, check out the course offerings at www.coursera.org and let us know what you want to study. You will register through SHCC as with any other course.

Course fee: £40 (subsidised rate)

This is just a small sample of the courses available through Coursera!
Check out www.coursera.org for a full, up-to-date list.
