

Topic	Action
Banking	Non-residents need access to banking services to facilitate digital nomads and other workers only temporarily in St Helena.
Banking	All businesses would benefit from a bank account that can send and receive money online.
Education	Extend the apprenticeship programme to two years.
Education	Monitoring the number of students not in employment, education or training to determine the best way to cater to this group.
Education	SHG seeks to maintain a fully inclusive education system that meets the needs of all children, including those with special needs or disabilities.
Education	St Helena Community College resources should be regularly evaluated and expanded where possible.
Education	Include vocational opportunities in Post-School scholarship.
Housing	Policies that facilitate first-time home buying and reduce costs of buying a home for people who choose to stay in St Helena will help to reduce emigration and keep workers on-Island.
Immigration	Ensure that the Immigration Ordinance is aligned with the vision for St Helena's labour market, recognises the value of contributions by St Helenians and migrants alike and facilitates employment in organisations from all sectors. The review should specifically seek to identify and, where possible, eliminate, disparities between public and private sector requirements for employing immigrants.
Investment	The SHG Investment Strategy should continue to preference investors who employ local staff when appropriately skilled individuals are available.
Social Security	Ensure that social policies provide adequate support for families with children and create an environment where it is financially viable for children to remain in school until 18. Further, social policies should provide adequate support to those individuals who are unable to work, whether due to disability or care for a child or other vulnerable individual.
