

St Helena

Valid Friday 16 October 2026 – Monday 19 October 2026

Friday 16 October 2026

Summary	A cloudier and wetter day than Thursday, with hill fog and showers more frequent. Northwestern areas will likely see some warm and sunny spells continuing, however. Winds strengthening slightly later on.
Wind	SE 5-10 gusting 10-15 knots.
Visibility	30-40 KM, moderate to poor in showers, very poor in hill fog.
Air Temperature	Max: 24C (Jamestown) 22C (elsewhere) Min: 19C (Jamestown) 17C (elsewhere)

Severe Wx Advisory Issued Status
None

Saturday 17 October 2026

Summary	Likely a cloudy start with scattered showers, but brightening up slightly into the afternoon. Winds strengthen further through the day, becoming quite blustery by the evening and stronger still overnight; likely quite a chilly night due to this.
Wind	SE 10-15 gusting 15-20 knots, becoming SE 15-20 gusting 20-25 knots through the evening.
Visibility	30-40 KM, moderate to poor in showers, very poor in hill fog.
Air Temperature	Max: 23C (Jamestown) 21C (elsewhere) Min: 18C (Jamestown) 16C (elsewhere)

Severe Wx Advisory Issued Status
None

Sunday 18 October 2026

Summary	A windy day for all, especially across high ground, with winds strengthening through the day. These strong winds are looking to be accompanied by brighter weather than the preceding days, with showers looking more isolated. Likely feeling cooler than usual due to the wind chill, with sea states becoming moderate to rough later.
Wind	SE 15-20 gusting 20-25 knots, becoming SE 15-20 gusting 25-30 knots through the day, with isolated gusts of 30-35 knots possible over exposed high ground.
Visibility	30-40 KM, moderate to poor in showers, very poor in hill fog.
Air Temperature	Max: 22C (Jamestown) 20C (elsewhere) Min: 18C (Jamestown) 16C (elsewhere)

Severe Wx Advisory Issued Status

Under consideration

Monday 19 October 2026

Summary	Strong winds continue through the morning, before starting to ease through the afternoon. These will be accompanied by similar weather to Sunday, with plenty of high cloud likely bringing a dry and bright day, and isolated sunny spells. Sea states remaining moderate to rough throughout, and likely still feeling a bit cool.
Wind	SE 15-20 gusting 25-30 knots, with isolated gusts of 30-35 knots possible over exposed high ground at first. Easing to SE 10-15 gusting 20-25 knots from mid-afternoon.
Visibility	30-40 KM, moderate to poor in showers, very poor in hill fog.
Air Temperature	Max: 22C (Jamestown) 20C (elsewhere) Min: 18C (Jamestown) 16C (elsewhere)

Severe Wx Advisory Issued Status

Under consideration
