Overview of Performance for OCTOBER 2016

Introduction

October continues to see our water resources stretched and residents have being urged to limit water consumption.

The Community Health Team strengthens with the arrival of a new Clinical Psychologist on 11 October 2016.

An Energy Strategy for St Helena was endorsed by the Environment and Natural Resources Committee meeting held on 20 October 2016.

On 21 October 2016 we saw the arrival of a large passenger aircraft, an Avro RJ100 operated by Tronos Jet Maintenance carrying Atlantic Star Airlines personnel, which made a successful technical stop at St Helena Airport. Another milestone for St Helena Airport was also achieved on 26 October 2016, with Air Safety Support International (ASSI) issuing a second Aerodrome Certificate to St Helena Airport - having been satisfied that the Airport infrastructure, aviation security measures and air traffic control service complies with international aviation safety and security standards.

These re-issued approvals supersede the previous versions and will remain in force until 9 May 2017.

Summary of Key Performance Indicators

Electrical training at levels 2 and 3 was completed in October for 14 individuals; 4 completed Level 3. 6 students began degree-level studies with Open University; 10 began ILM studies and there are currently 54 apprentices undertaking training.

Actual TC expenditure against budget as at 31 October 2016 is £103K (14%) underspent, mainly due to posts/consultancies not filed or required within the period. YTD actual expenditure against budget as at 31 October 2016 is £451k (10%) underspent, which is mainly due to consultant costs anticipated delayed, not approved or no longer required within the period.

Recurrent Expenditure is 100% of spend against budget for the month of October and YTD is 95% of spend against budget.

Corporate Risk Management

In respect of the risks on the Combined Performance Report there has been no major change, and are currently up for review.

Approximately £2,239,161 capital spend at the end of October 2016 for the Capital Programme.

Summary of Financial Performance

The overall performance on the recurrent budget for the reporting period, April to October 2016 is favourable. The Consolidated Fund report shows the management of total expenditure within budget Whilst revenue continues to come in under budget, under spends on the majority of heads of expenditure have resulted in a surplus of £0.9M in comparison with the budgeted deficit of £0.4M for this period.

Budgeted expenditure for the year to date was £21.0M and actual expenditure was £19.4M. This represents an under spend of £1.6M and a favourable variance of 8% against the expenditure budgeted for the year to date.

Actual revenue for the year to date was $\pounds 20.4$ M in comparison with budgeted revenue of $\pounds 20.7$ M. This represents an under collection of $\pounds 0.3$ M and an adverse variance of 1% against budgeted revenue for the year to date. The under collection remains at a similar level to that reported in the previous month.

Key Revenue and Expenditure Variances

The Analysis of Revenue report shows that Customs Dues account for the majority of the £0.3M adverse revenue variance. Revenue generated from fuel and tobacco imports are less than budgets as quantities imported are less than anticipated.

The Consolidated Fund Report provides an analysis of the favourable expenditure variance of £1.5M. Under spends in excess of £100K are reported for Health, Technical Cooperation, Safeguarding, Environment and Natural Resources, Human Resources and Education. Brief comments on these under spends are provided below.

Health £469k - The majority of the under spend relates to aero medical evacuation.

Technical Co-operation £450k - As previously reported there have delays in recruitment to several positions.

Safeguarding £212k - Legal fees and employee costs have not been incurred in line with planned spend.

Environment and Natural Resources £190k - The under spend is mainly due to delay in the commencement of contracts.

Human Resources £210k - The under spend results from delays in commencement of training courses.

Education £123k - The underspend relates to several areas including employee costs, training materials and payments to other bodies.

Capital Programme

Expenditure to date on the Capital Programme is approximately £2,570m, of which £2,239m is DFID funding.
