

External Finishes Approved by Governor in Council

Issue No: 14  
31 July 2012  
Access Office, SHG

St Helena Airport

Landside View—KMH Architects

A development application was submitted for the Airport Project in May 2008. In September 2008, Governor in Council granted permission for the construction of the airport and related infrastructure. Conditional approval was received for the Airport Terminal and Combined Buildings, subject to the external finishes being approved by Governor in Council.

At a special sitting of Executive Council held on 31st July 2012, Governor in Council unanimously approved the external finishes of the Airport Terminal and Combined Buildings. The comments made were very positive and Members were particularly pleased that the concerns raised by the public during the 2008 consultation on the reference design had been addressed. All Members felt that this was a vast improvement over the reference design.
