Completed Access Track on Ruperts Hill - September 2012

Ruperts Hill before starting the Access Track

The Early Works phase of the project has now come to an end. On Friday, 31 August 2012 Basil Read completed the final cut of the 14km Access Track on Ruperts Hill. This road will be used by Basil Read as a haul route to track all the large equipment to Prosperous Bay Plain, where the major construction works will start. Works will be undertaken at the end of the project to develop this track into a proper public highway.

Overleaf we've compared some before and after pictures of the Early Works progress to date in Ruperts.
