## **BUDGET EXECUTION REPORT**

**FOR PERIOD 4 (JULY 2020)**

**FINANCIAL YEAR ENDING 31 MARCH 2021**

## OVERVIEW OF BUDGET AND PERFORMANCE

### Current stage of the budget monitoring process

This Budget Execution Report (BER) covers the period to 31 July 2020, period 4 in the financial year 2020/21.

The 2020/21 budget was considered and approved at the formal Legislative Council session on 29 June 2020. A Rollover budget was in effect for the first 3 months of the financial year.

As a control mechanism budgets are constantly monitored for potential overspends of expenditure and under collections in revenues throughout the year by Directorates and Corporate Finance. Performance against revenue and expenditure budgets are scrutinised on a monthly basis with the annual forecasting process having commenced in July 2020 for the appropriation period 2020/21.

Forecasts are updated on a monthly basis up to the year end with actuals for prior month revenues and expenditure. Any predicted (overspends) / underspends of expenditure / revenue is managed by the Directorate by making cost savings elsewhere if possible.

#### Performance Measures

	Approved Budget	Actual to Period 4	Budget to Period 4
	£	£	£
Local revenue as a % of Total revenue			
Total Local revenue	3,518,000	4,573,265	4,176,776
Total revenue	11,026,000	14,251,523	13,981,276
	<b>32%</b>	<b>32%</b>	<b>30%</b>

The BER on page 3 shows the performance against revenue and expenditure budgets by Head of Appropriation and significant sub component budgets. The performance is further illustrated by the Variance Summary Report on pages 4 and 5. Detailed explanations for the budget variances are included on the Variance Explanation Report on pages 6 - 7.

## VARIANCE SUMMARY REPORT PERIOD 4 (JULY 2020)

### EXPENDITURE:

Overall expenditure for the 4 months period ending July 2020 was £14,877,696 an overspend of £35,042.

When compared to budgeted expenditure the Overseas Medical Treatment budget, Judicial Services, Health and Pensions had the highest savings 40%, 29%, 11% and 9% respectively. Police	98,649	90,280	8,369	9%	The higher revenue was due to a charge to Ascension Island Government for OTRICs Platform (£4k) and the remainder being immigration service fees for Saint Status Application, Saint Naturalisation and similar services.
Corporate Finance	3,559,008	3,378,857	180,151	5%	The higher revenue collection is due to the customs duties (£180k) on Alcohol importation.
Civil Contingencies	1,341,626	1,039,250	302,376	29%	The revenue is less than budget due to nature of the project, the income recognition was projected to be earlier in response to the project's expenses.
Health	219,120	201,993	17,127	8%	The increase in revenue is mainly due to eye examinations service, medical and hospital fees as well as food testing fees.
Environment, Natural Resources and Planning	48,898	28,796	20,102	70%	The over collection is significantly attributable to planning application fees (£15k) that had not been anticipated, with additional vet service fees (£4k).
Infrastructure and Transport	183,113	129,309	53,804	42%	The increase in revenue is mainly due to COVID-19 related works performed under the Roads Section (£29k) which has been recharged to Civil Contingencies under Corporate Finance. Human Resources Services	107,082	113,274	6,192		5%	The variance is attributable to overseas training, which has slowed down due to COVID-19 lockdown as candidates can not travel.
Civil Contingencies	759,066	664,250	(94,816)		(14%)	The underspend has been due to the nature of the project relating to COVID 19, an initial higher budget was provided at the onset of the project as a reactionary measure. This is expected to be utilised as the year progresses and the risk to the Island continuously assessed.
Pensions	413,015	454,000	40,985		9%	The provision for pensions benefits on retirement for new pensioners was not required due to continued employment after retirement age.
Income Related Benefits	246,379	234,000	(12,379)		(5%)	The actual is demand led and is more than the budget due to an increase in the number of claimants.
Health	1,130,807	1,270,391	139,584		11%	The net saving is due to stock adjustments on medical supplies. The cost of medical supplies purchased is transferred to the inventory account and reflected as an expense as it is used. At presents a total of £435k has been spent however the vast majority is held in inventory. This expected to reverse as the year progresses and inventory is issued.
Overseas Medical Treatment	224,162	375,000	150,838		40%	Due to the COVID 19 pandemic there were no new/additional overseas medical referrals sent off Island as anticipated resulting in an underspend.
Environment, Natural Resources and Planning	490,024	519,753	29,730		6%	The underspend has been mainly due to overseas procurement supply delays as a result of reduced activities from the effects of COVID 19, supplies and services were underspent by £23k. Farmer Support grants £7k had not yet been utilised.
Children & Adults Social Care	1,079,643	1,018,282	(61,361)		(6%)	The overspend is due to employee costs being higher which included allowances & overtime (£36k). Increased contracts payments in relation to laundry costs (£14k) and urgent supplies and services (£22k) contributed to the overspend. A net saving of (£11k) was achieved mainly from grants not yet awarded.
