

This is a regular weekly update to the classification of countries based on their current 14-day COVID-19 reported cumulative case prevalence rate published by the European Centre for Disease Prevention and Control (ECDC), and the latest quarantine status issued by the UK Government.

- GOLD:** No reported cases in last 14 days and exempt from UK quarantine
- GREEN:** 14-day reported cumulative case prevalence higher than zero but less than the medium threshold (0.04%) and exempt from UK quarantine
- AMBER:** 14-day reported cumulative case prevalence above the medium threshold (0.04%) but less than the high threshold (0.10%) or countries who are below the medium threshold but not exempt from UK quarantine
- RED:** All countries with 14-day reported cumulative case prevalence above the high threshold (0.10%)
- Not classified:** Countries not exempt from UK quarantine but with no reported cases, and countries whose data are not reported by ECDC

Classification changes since the last update on September 2, 2020:

Faroe Islands	Amber	to →	Green
Antigua and Barbuda, Guernsey, Isle of Man, New Caledonia	Gold	to →	Green
Portugal	Green	to →	Amber
Libya, France	Amber	to →	Red
Lao PDR	Amber	to →	Not classified

** Two new cases have been reported on Ascension Island on 4/9/2020; since these are in quarantine, the 14-day case prevalence rate in the Ascension population is reported as zero and the classification remains Gold.

14-day reported case prevalence rates per 100,000 population, selected countries:

This Update is produced by the St Helena Statistics Office. For full details of the methodology and data sources, please see <https://www.sainthelena.gov.sh/stats-bulletin-8-covid-19>.

Country	Population	14-day case prevalence, per 100,000	Classification (* would be classed at lower risk level if UK quarantine restrictions were lifted)
Anguilla	14,872	0.0	Gold
Ascension (**please see covering note)	806	0.0	Gold
Cayman Islands	64,948	0.0	Gold
