# GOVERNMENT OF ST HELENA BUDGET 2020/21 FOREWORD BY THE FINANCIAL SECRETARY

The Government of St Helena's budget for the financial year 2020/21 is another significant and challenging budget for the Island.

The budget process is, as always, led by Elected Members and they take responsibility for the budget-setting approach and allocation of funding. Elected Members have once again been faced with difficult choices, of which services to fund, to what level or standard, whilst mitigating against the potential risks to the delivery of core public services and remaining within the overall funding limits.

This year an additional significant challenge arose with the Corona Virus pandemic (COVID 19) negatively impacting on virtually all economies across the world, St Helena has been no exception. Against this back drop there is no expectation of growth in local revenue over the coming year, instead we expect a reduction in revenues which the Government is monitoring closely.

Despite the COVID 19 crisis, the continued allocation of budgets to the key priority areas year on year demonstrates the commitment of the Government to invest in and develop front line services for the people of St Helena.

This year's funding envelope is for a one year programme following the latest visit from the UK Government's Department for International Development (DFID) Financial Aid Mission (FAM) team. Despite best efforts, a three year settlement for financial aid could not be agreed but this remains a key priority for the Government to have in place to provide greater clarity and greater certainty to directorates on funding envelopes to develop longer term financial plans.

In light of the one year financial aid settlement, the uncertainty around local revenues due to COVID-19 and the implications of future governance reform, we have decided not to include indicative budgets for the outer years, 2021/22 and 2022/23, in this Budget Book.

### **Strategic Planning**

The St Helena Island 10 Year Plan 2017-2027 was approved and adopted by Executive Council in March 2017 and articulates the longer term vision for St Helena. Directorate Strategic Plans and budgets have been prepared in line with the 10 Year Plan.

By working with the community to develop the 10 Year Plan we are able to capture what is important to St Helenians under five main headings and National Goals:

- Altogether Safer
- Altogether Healthier
- Altogether Better for Children and Young People
- Altogether Greener
- Altogether Wealthier

This 10 Year Plan sets out clearly what we would like to achieve and how we are going to do it. The overall objective of this plan is:

# "To continue to make St Helena a wonderful place to live, work, raise children, visit and to do business."

In September 2018 Executive Council agreed that two further goals should be included that underpins the other five goals, they are:

- Effective, Efficient and Accountable Public Sector
- Effective Infrastructure

Through the Medium-Term Expenditure Framework (MTEF) we ensure that Government's resources are directed towards achieving the National Goals for St Helena as outlined in the 10 Year Plan. In particular, through careful prioritisation of the budget by Elected Members, we ensure that as much of our financial resources as possible directly support our national goals.

The St Helena Island 10 Year Plan can be found at <a href="http://www.sainthelena.gov.sh">http://www.sainthelena.gov.sh</a>.

### **Sustainable Economic Development Plan**

St Helena's Sustainable Economic Development Plan 2018-2028 (SEDP) was endorsed in May 2018.

The SEDP considers St Helena's comparative advantages on a global scale and recommends support for 15 particular export and import substitution sectors which can improve St Helena's Balance of Payments.

The goals of the SEDP are:

- 1. Increase Exports
- 2. Substitute Imports
- 3. Attract Visitors and Increase Tourism
- 4. Mitigate impacts of inflation on the lowest income groups
- 5. Improve Land Productivity
- 6. Sustain and improve our Natural Capital
- 7. Improve Infrastructure
- 8. Develop, Maintain and Attract a Skilled Workforce
- 9. Develop the Digital Economy
- 10. Reduce Leakage of Income

There is an associated internal implementation plan and a six monthly progress report is published by the St Helena Government. Furthermore, all decisions made by Executive Council must consider the impact on the SEDP goals. The SEDP and the update report is available at <a href="http://www.sainthelena.gov.sh/publications/">http://www.sainthelena.gov.sh/publications/</a>

### **Basis of the Budget**

The MTEF process fully integrates Strategic Planning and Budgeting. This year, the planning and budgeting process built on the work previously done to ensure resources are allocated to the highest priorities.

During the strategic planning and budgeting work that commenced in June 2019, directorates were asked to take into account the agreed central core initiatives which include:

- Improving efficiency and productivity with regard to the divestment opportunities,
   Systems/Process Reviews and better use of SHG resources;
- Streamlining and restructuring the Public Sector;
- Improving joined up approach to business delivery between different sectors;
- Increasing revenue where it is deemed appropriate.

The Budget for 2020/21 is cash-based but has been modified to take account of certain principles of accruals accounting, where operating expenditure and capital investment have been clearly separated. This has been the case for the last eight years following the move from cash accounting to accruals accounting.

The budgets for individual Directorates are again shown on an 'Outputs' rather than an 'Inputs' basis. That is, the costs of the various types of services provided by each Directorate are shown rather than line by line resources that are input to the system. This strengthens the accountability of Directors and Accounting Officers for the public funds with which they are entrusted, and the outcomes they have agreed to deliver with the funding allocated. This is the tenth year of the 'Outputs' basis of presentation of the budget and we are able to show comparative figures for last year's budget against this year's.

### St Helena Economy

### The State of the Nation in 2020

Last year we highlighted the implications of the tailing off of the airport construction project, and a surge in visitor numbers thanks to the commercial air service. Despite the additional average 12% annual growth in tourists seen in 2018 and 2019, the reduction in construction had led to economic downturn, which was compounded by the lack of a government capital programme and a relatively weak Pound. At the time we said we needed to focus on growing other parts of our economy, not just focusing on tourism as the panacea of growth. Our Sustainable Economic Development Plan (SEDP) was the road map to doing that.

This year we have been committed to regulatory reform, setting up the policy and legal frameworks for a modern future for St Helena. We have set up new institutions, new work streams and have been working with strategic investors to reform a number of industries.

The Research Institute launched in November 2019 and the anticipated research funding provides a significant inflow of money into the island and we are pleased to help facilitate research and visiting researchers through this new institution.

The Ship Registry Policy was updated in October 2019 to broaden eligibility for yachts and pleasure vessels to be registered with the Red Ensign in St Helena. The eligibility criteria for registering commercial vessels will be reviewed at a later date, following the maritime audit which is expected to be completed around September 2020.

The Earth Station Licencing Policy was endorsed in April 2020 which sets out the framework to enable Satellite Ground Stations to locate in St Helena. These antennas will use some of the bandwidth provided by the fibre optic cable, and therefore help to spread the cost of connection amongst more customers, which is the facilitator for cheaper internet prices in St Helena.

The draft Company Registry Policy is out for consultation. St Helena already administers a Company Registry but we intend to modernise the registry, bringing it in line with international obligations and promoting St Helena as a fair tax destination.

The Investment Strategy was agreed and new tax incentives for export and import substitution businesses came into force alongside the Approved Investment Scheme in April 2019. The Investment Prospectus was endorsed and launched in October 2019. Not only did this outline opportunities for investment in St Helena, it also advertised strategic assets for sale, and provided information on financial incentives of investing in St Helena. We have had uptake from many local investors as well as inward investors and have granted Approved Investment Status to three local investors and one inward investor to date.

There is still a reform of the Immigration Policy required to streamline immigration processes for contributing inward investors and the details of that will be made public this financial year.

Also in 2019 SHG endorsed a new Labour Market Strategy that is intended to meet the needs of St Helena today while also providing a strong foundation on which to build the economy of tomorrow. In the first few months of implementation, we have already achieved important programmatic targets, including development of a data-driven Shortage Occupation List and guidance to assist employers in meeting their staffing needs while also protecting local workers. Alignment of customs duty exemptions effective from 1 April 2020 will ensure that both returning Saints and internationally-recruited workers are eligible for the same benefits, regardless of whether they work for SHG or a private sector employer.

2019/20 financial year also marked the beginning of the Economic Development Investment Programme, St Helena's first capital programme in three years. In the first year of the programme, we have approved projects totalling £4.6 million. The most significant portion of this investment has been in crucial rock fall protection for our ports and residents living in Jamestown and Rupert's valley. This work is a vital step toward relocating cargo operations from Jamestown to Rupert's and facilitating future development of the Jamestown Waterfront. In the near-term, the project has brought positive economic benefits associated with rental accommodation, car hire, food and beverage purchases and, most importantly, employment of local workers alongside the team completing the project.

In terms of the environment, a new marine lab in Jamestown is progressing and SHG's Waste Management Service (WMS) have implemented aluminium drink cans recycling on site at the Horse Point Landfill Site with the intention of exporting this valuable waste stream. Plastics recycling is now being undertaken by SHAPE. We also see two new earth station antennas at the Met Office, these are contributing to global monitoring of climate and sea level rise. The signing of a contract for a Power Purchase Agreement was announced in May of this year. This will be a monumental achievement for St Helena and its green credentials. This project

will see a significant private sector investment into public infrastructure through the combination of Solar, Wind and Battery technologies that will help St Helena reach its target of 100% energy from renewable sources by 2022.

The most notable progress with regards to the enabling environment is the signing of the agreement to land a branch of the Equiano Fibre Optic cable on St Helena in December 2019. A task force has been mobilised to ensure that the Cable Landing Station is constructed. The cable is being manufactured and will be laid in 2021 with the intention that the cable will go live in 2022. Since the exclusive public telecommunications licence with the on-Island provider will expire after 31 December 2022, this Government will be working to negotiate any future licence and new packages for the public to take the fullest advantage of the significantly increased bandwidth.

### **Tourism**

There were 4,264 arrivals and 4,305 departures by air in 2019. Arrivals by air grew by 12% in 2019 compared to the previous year, with arrivals for a leisure purpose, including tourists and St Helenians visiting family and friends, increasing by 19%. Arrivals in 2020 were also showing strong growth in January and February before the impact of the global COVID-19 pandemic on international travel in March and April. February was a record breaking month for arrivals; the number of tourist arrivals by air in February 2020 was 247, which is 30% more than February 2019. There is continued PR about the island with articles about St Helena featuring in The Guardian, the National Geographic, BBC History Magazine, CNN and more. A documentary by Wendover Productions called 'the World's most useful airport' best explains the ongoing significance of the airport for St Helena's people.

DFID Infrastructure spending was a significant fiscal stimulus to the economy between 2012 and 2014, producing a buoyant construction industry, increasing the working age population and allowing for a multiplier effect across the economy, causing increases in incomes and wealth. However, last year we noted in the budget that there had been a downturn. In 2019 that downturn flattened, creating the new 'business as usual', that was until the risk of COVID-19 had caused a recent curtailing of visiting tourists and a slowdown in sales, the true impact of that we will be able to analyse over the first quarter of this financial year.

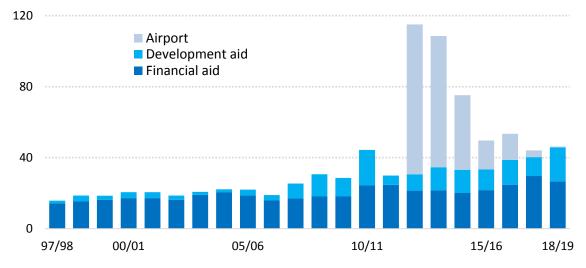

Figure 1: Financial Aid in 2018/19 prices

2018/19 development aid includes a substantial payment from the EDF for the fibre optic cable project. Our Business Survey, conducted in November 2019 shows 85% of the construction

businesses suggesting that their demand is decreasing and that they intend to reduce staff (28%), with only 5% saying that their demand is increasing. Over half (68%) believe that running costs are increasing.

This has had knock on effects. St Helena's highest income earners and male workers continue to experience a small average decrease in income. And the number of people and households receiving benefits (Income Related Benefit, (IRB) and Unemployment Allowance (UA)) increased over the last year. With a squeeze on some of the higher paid incomes, and more entrants to the sector 56% of accommodation and food service businesses say they think demand is decreasing (with only 15% say that demand is increasing).

Other sectors, however, continue to be more positive, with 31% of agriculture, forestry and fishing saying demand is increasing (compared to 25% who say it is decreasing). In each sector there are some opposing views, which show that some more competitive businesses, who trade at lower prices and/or with a higher quality may be expanding their share of the market, leaving some less competitive businesses behind.

The 2019 annual price inflation rate was 2.9%, measured using the Retail Price Index (RPI)<sup>1</sup> which was lower than last year's prediction issued in July of 4.2%. The rate Inflation has fallen since the COVID-19 pandemic; the Retail Price Index stayed constant at 105.9 in Q4 2019 and Q1 2020.

**Figure 2: Annual Price Inflation** 

Inflation is linked to South African and UK Inflation<sup>2</sup>. As prices in the UK increase as a result of the weak pound, and prices in South Africa increase as a result of political and environmental shocks, St Helena's prices also increase.

St Helena Government continues to change the Minimum Wage and income benefits to ensure the lowest paid do not struggle with inflationary pressures. The adult Minimum Wage increased to £3.18 per hour from £3.13 in April 2020. The Minimum wage for 16 and 17 year olds increased to £2.23 from £2.18 per hour in April 2020. St Helena's Minimum Wage first

\_

<sup>&</sup>lt;sup>1</sup> For the purposes of the budget, the annual inflation rate from Quarter 3 is always used each year. For information annual rate in Q4 2019 was 2.1% and Q1 2020/21 was 1.7%.

 $<sup>^{2}</sup>$  Regression analysis undertaken demonstrates that St Helena inflation can be estimated as 1/3 x UK inflation

<sup>+ 2/3</sup> x South African inflation.

came into place in June 2013 and at the time was £2.30 per hour for adults, so the Minimum Wage has increased by 38% since inception, which is larger than inflation increase as inflation has been 21% since 2013.

The poverty level (as measured using the Minimum Income Standard, MIS in February 2020) is £91.80 a week for an adult (including housing rent) or £4,774 a year.

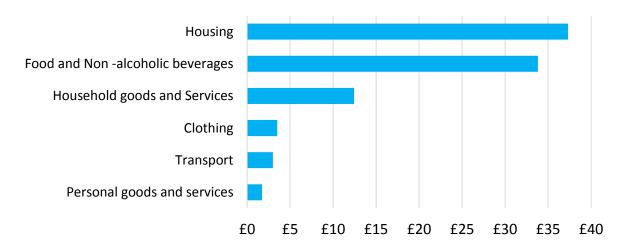

Figure 3: Current MIS basket composition, per week

The MIS sets both the Income Related Benefit, which is means tested, and the Basic Island Pension, which is based upon criteria pertaining to the number of years worked in St Helena. The number of recipients of the Basic Island Pension increased by 4% (one result of St Helena's aging population) from 757 in March 2019 to 785 in March 2020. The number of recipients of the Income Related Benefit increased by 30% from 150 in March 2019 to 194 in March 2020. The number of recipients of the Unemployment Allowance increased from 22 in March 2019 to 39 in March 2020.

There were an estimated 4,265 people resident on St Helena (excluding residents temporarily abroad) at the end of January 2020, compared with 4,487 at the same point in the previous year - a drop of 222 people (there were 33 deaths and 28 births in this period, which is a small part of this change). Population totals can vary widely from month to month on a small island, but the average 12-month net change for the last year (February 2019 to January 2020) was a fall of 140 persons, likely indicating a net outward migration of residents of just under 135 on average, accounting for births and deaths. The picture is similar among St Helenian residents, over the last year the average 12-month drop in the population of St Helenians living on St Helena (including any temporarily away) was 87.

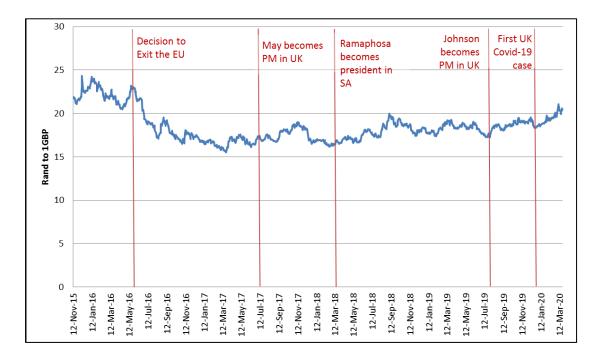

Median income from full-time employment in 2018/19 was £8,410 per year. This equates to less than 30% of the UK median wage equivalent, which was calculated by the ONS as £30,350 in 2019. The median income was a drop in real terms of 0.7% compared to the previous year (i.e. accounting for inflation). The lowest earners and female workers experienced a small average increase in income, largely as a result of the Minimum Wage being increased. Highest income earners and male workers experienced a small average decrease in income, largely as a result of the construction industry experiencing downturn. Number of full-time employees eligible for income tax (i.e. above the £7,000 threshold) has increased from 943 in 2012/13 to 1,597 in 2017/18, largely as a result of the Minimum Wage pushing up low incomes. Number of employees earning above the minimum wage has been steady for the last three years, at about 2,000.

The most critical statistic for St Helena's development at present is its trade balance. In 2018/19 St Helena imported £19.3m of goods, mostly from South Africa (47%) and United Kingdom (41%); £1.4m of these goods was for a small amount of airport-related construction. In the last year before the airport project began, 2011/12, total imports were £13.0m.

Tourism services is St Helena's biggest export: expenditure of holiday visitors (Saint and non-Saint) in 2019 is estimated to be around £5.5m - 6.0m, based on a small sample of visitors departing from the airport (tourists were estimated to spend around £190 per day, and St Helenians abroad visiting family and friends were estimated to spent about £110 per day). Exports of goods totalled £0.42m in 2018/19, mostly fish (£0.32m) and coffee (£0.10m).

In 2020/21, the inflation expectation is 2.2%. There are a number of issues which will affect the inflation rate in the 2020-21 year. Predominately, these are:

- 1. The longer term effects of the COVID-19 virus and its impact on global production, international travel, demand and prices.
- 2. Changes in the exchange rate of the Pound against the Rand and the Dollar; this affects the price of goods and services imported from South Africa and the price of oil respectively.

- 3. Price inflation in South Africa, which fell from an annual rate of 3.7% in Q1 2019 to 3.6% in Q1 2020. This affects the price of goods and services imported from South Africa. In previous years, drought and the political environment has affected inflation in South Africa.
- 4. Price inflation in the UK, which fell from an annual rate of 2.2% in Q4 2018 to 1.5% in Q4 2019. This affects the price of goods and services imported from the UK. Brexit and other shocks like COVID-19 affect UK prices, which would be passed on to St Helena with an approximate three month lag.

In 2021-22 the inflation expectation in St Helena is 2.6% and 2022-23 it is 3.1%. The prediction is quantified considering the lagged relationship between prices in St Helena, the UK and South Africa and the inflation expectations of the UK and South Africa.

Revenue forecasts for the next three years have largely been based on inflation expectations, impact of reduced tourism as a result of COVID-19 related travel restrictions and changes in behaviour with regards to smoking.

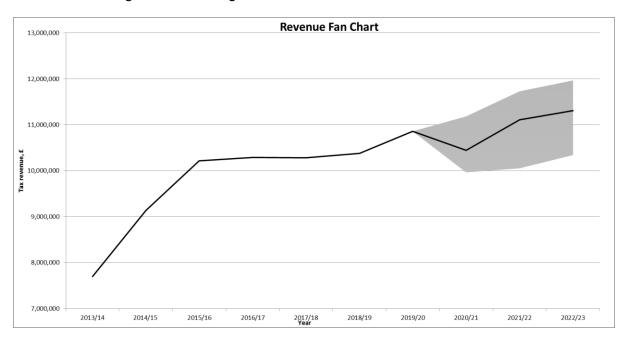

Figure 4: Revenue Fan Chart

It is estimated that in 2019 around £5.5m-6m of revenue was generated through the Tourism sector. The Revenue Forecast for 2020/21 cautiously assumes that the majority of these revenues are not generated this financial year, as a result of travel restrictions, and therefore tax revenues are impacted. Realistically, we don't know how long travel restrictions will go on for, and therefore revenues are hard to predict, but our lower and higher revenue forecasts have taken these uncertainties into account for planning purposes.

The 2019 tax reforms also provide some uncertainty to the revenues this year. In particular, the take up of income tax reductions for exporters and a number of import substitution sectors may lower tax take in the short term, but the revocation of the Investment Tax Credit, and the earning of more wealth for St Helena through exportation which will have multiplier effects and help boost taxes.

In last year's budget we talked about the requirement to turn a corner in St Helena's fortunes. We have made good progress this financial year in enabling the environment to do that, and moving away from putting all of St Helena's prospects in the Tourism basket. Prior to the pandemic, the data showed a flattening of the downturn St Helena was experiencing. We intend to keep working through the adversity including the implications of COVID 19 to ensure that the Island makes the most of its comparative advantages and develop into a prosperous place to live and work now and in the future.

### Summary of the 2020/21 St Helena Government Recurrent Budget

The table below summarises the total estimated expenditure and key sources of revenue for 2020/21 compared with the 2019/20 estimates:

| Total Expenditure Budget | 2020/21<br>£m | 2019/20<br>£m | Inc /(Dec)<br>£m |
|--------------------------|---------------|---------------|------------------|
| Recurrent Expenditure    | 48.1          | 45.8          | 2.3              |
| Capital Expenditure      | 1.0           | 0.3           | 0.7              |
| Total Expenditure        | 49.1          | 46.1          | 3.0              |
| Financial Aid            | 34.3          | 31.8          | 2.5              |
| Domestic Revenue         | 14.0          | 14.0          | 0                |
| FCO Funding              | 0             | 0.3           | (0.3)            |
| Total Revenue            | 48.3          | 46.1          | 2.2              |

The table above shows a £3.0m increase in total expenditure in comparison with the 2019/20 approved budget and an increase in total revenue of £2.3m. The deficit between £0.75m total budgeted expenditure and projected revenue will be financed through a withdrawal from the General Reserve of the Consolidated Fund.

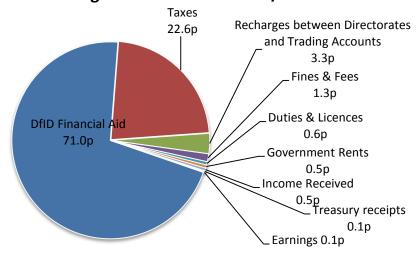

#### Revenue

Financial Aid from the United Kingdom Department for International Development (DFID) has increased from the previous financial year by £2.5m. The increase represents the financial support for COVID-19 preparedness. There has been no increase for existing service provision.

Domestic revenues which include income tax and customs revenues are projected to be similar to the budget for 2019/20, although more work is needed to understand the impacts of COVID-19. The budget reflects a decrease in funding from the Foreign and Commonwealth Office (FCO) as these funds are now managed under the Special Fund, FCO Projects.

The chart below shows where each pound of revenue is expected to be generated in 2020/21. The most significant revenue streams are from DFID financial aid and taxation.

# Where each £ of St Helena Government Income for the recurrent budget comes from in 2020/21

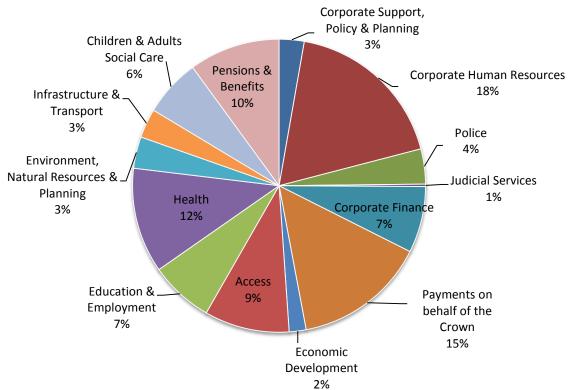

### **Expenditure**

Overall the recurrent and capital expenditure budgets have increased in nominal terms by £3.0m or 6.5% over the original expenditure budget for 2019/20. The increase is mainly due to the following areas:

- Civil Contingency £2.5m for COVID-19 preparedness, a budget held under Corporate Finance;
- Payments on Behalf of the Crown £0.25m for the upgrade and replacement of information technology equipment; and £0.5m earmarked for the upgrade on the fish processing plant and associated equipment;
- Pensions and Benefits £0.2m provision for potential changes to the Social Security legislation for the income related benefit; and
- Access £0.1m provision for the potential subsidisation of freight charges, although a significant amount for work is still required to develop proposal.

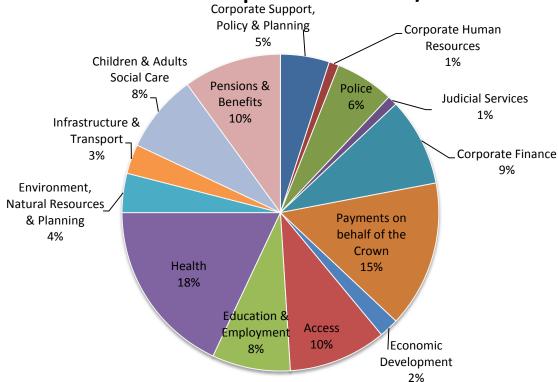

## **Recurrent Expenditure by Category for 2020/21**

Technical Cooperation (TC) expenditure is combined within the overall budget for Corporate Human Resources and is not allocated to the individual budgets of directorates. The TC funding support to some directorates is a significant cost and it is important that the TC support for those service areas are taken into account when considering the level of funding for each directorate.

The chart below shows the recurrent expenditure by Head including the allocation of the TC line posts.

The basic tax rate for employment income and self-employed will remain at 26% for income over £7,000, and the higher rate tax band for income over £25,000 per annum at 31%, and 8% tax on dividends falling into the higher rate tax band. Corporation Tax will remain unchanged at 25% except for proposed reductions noted below to support the specific identified sectors.

### **Customs Duties**

The table below shows the projected Customs and Excise revenue for the 2020/21 financial year and the budgets for 2019/20 and 2018/19:

Projections for taxes and duties are based on the updated macro-economic modelling. The updated macro-economic model provides the evidenced based, robust estimate of future tax revenues.

Limited policy changes for taxation and customs dues are included in the budget for 2020/21, mainly to provide equity in the treatment of Government and private sector employees on arrival into St Helena.

The Company Registry policy is out for consultation. This considers the introduction of global taxation for companies operating abroad. Currently St Helena has a 0% income tax rate on income earned overseas by companies; it is proposed instead to define 20% of profits generated overseas as locally derived profit, and apply the existing corporation tax rates against that income deemed to be locally derived. Whilst this will have no effect on the majority

of companies currently registered in St Helena, it will safeguard against exploitation as the Company Register develops.

There were a number of tax changes for 2019/20 to support the delivery of the SEDP, the 10 year plan and to reduce the trade deficit. A reduction in Self – Employed and Corporation tax charges in relation to exporters and producers of certain goods and services, e.g. fish, honey, coffee, meat, vegetables and craftwork.

The introduction of the Approved Investment scheme gave concessions on import duties to new or existing businesses for any new investments which meet the pre-defined criteria to achieve the Approved Investment Status.

# ANALYSIS OF EXPENDITURE AND REVENUE BY HEAD

### **HEAD 12: CORPORATE SUPPORT, POLICY & PLANNING**

Accounting Officer: Head of Corporate Support

The role of the Corporate Support, Policy and Planning section of Corporate Services is to provide support to SHG Directorates in policy development, performance and risk management, provision of statistical data, information services, statutory appointments and external communication via the Press Office. The section also provides administration and accounting support to other sections of Corporate Services, as well as those service areas which fall under the umbrella of Corporate Support, such as the Governor's office and residence and Attorney General's Chambers. Support to the Executive and Legislative Councils is also part of the role, including the administration of matters such as Elections, formal meetings of the Legislative Council, Commonwealth Parliamentary Association business and the day to day running of the Legislative Council office.

#### **Priorities**

Priority 1 - Drive SHG's Digital Transformation Agenda

Priority 2 - Ensure effective corporate governance arrangements are in place to achieve St Helena's overarching goals and objectives

Priority 3 - Create an enabling environment that is conducive to economic growth

Priority 4 - Encourage and facilitate openness and transparency across SHG

Priority 5 - Enable and support policy makers, directorates and the public to make better decisions

Priority 6 - Ensure delivery of Fibre Optic Cable Project milestones

**HEAD 21: ACCESS** 

Accounting Officer: Deputy Financial Secretary

#### **HEAD 22: EDUCATION AND EMPLOYMENT**

Accounting Officer: Director of Education and Employment

The Education & Employment Directorate's role is to ensure that education services are provided to meet the needs of the people of Saint Helena and to support the economic and human capital development of the island. As part of core education provision, four schools provide full-time compulsory schooling for persons 5 to 16 years of age under the education Ordinance (2008), with the primary schools also offering Early years provision for children from age three. Prince Andrew school also offers sixth form provision for years 12 - 13. Schools are supported by the Teacher Training and Inclusion Sectors. In addition, the Directorate has a Life Long Learning Sector which operates the St Helena Community College, a Vocational Centre, the Apprenticeship Programme, the St. Helena Research Institute and the St Helena Public Library Service.

Priority 1 - Improve educational outcomes for all.

Priority 2 - Have a skilled and qualified workforce.

Priority 3 - Operate an inclusive system that meets the holistic needs of all children.

Priority 4 - The St. Helena Community College meets the academic, training and development needs of the people of St. Helena

Priority 5 - Give opportunity to children to remain in education or training until they reach 18 years.

## **HEAD 29: CHILDREN & ADULTS SOCIAL CARE**

Accounting Officer: Director of Children & Adults Social Care

The Children and Adult Social Care Directorate is the statutory organisation that effectively safeguards the most vulnerable children and adults from abuse and harm on St Helena. The statutory duties under the Welfare of Children Ordinance and the Community Care Act (UK) underpin children and adult statutory social work practice. The overall service offer also encompasses all areas of residential care, outreach support, homecare, foster care and refuge provision working with all vulnerable groups on the island.

- Priority 1 Ensure a Safe Statutory Offer for Children and Adults.
- Priority 2 Provide an Effective Community Care Offer.
- Priority 3 Develop and Maintain a Person Centered Residential offer for Children and Adults.
- Priority 4 Work with partners to ensure an Effective Safeguarding Board.
- Priority 5 Improvement and quality assurance framework implementation.
- Priority 6 Building a sustainable service offer to meet the demographics of St Helena.
