No Man's Land by David Baldacci

No Man's Land by David Baldacci is an exciting thriller featuring special investigator John Puller, who is pursuing a case that will send him deep into his own troubled past.

Paul Rogers has just been paroled after spending ten years in a high-security prison for murder. And with his freedom comes a desire to pay back old debts. Harboured a dark past that changed him in unimaginable ways, Rogers embarks on a journey across the country, set on a path of revenge against the people who took away his humanity.

As the war rages on in the summer of 1943, causing massive destruction and widespread fear, the King and Queen choose to quietly send their youngest daughter, Princess Charlotte, to live with a trusted noble family in the Yorkshire countryside. Despite her fiery, headstrong nature, the princess's fragile health poses far too great a risk for her to remain in war-torn London.

Third in line to the throne, seventeen year-old Charlotte reluctantly uses an alias upon her arrival in Yorkshire, her two guardians the only keepers of her true identity. A talented horsewoman, Charlotte begins to enjoy life out of the spotlight, concentrating on training with her beloved horse. But no one predicts that in the coming months she will fall deeply in love with her protectors' son. Far from her parents, a tragic turn of events leaves an infant orphaned. Alone in the world, that child will be raised in the most humble circumstances by a modest stable manager and his wife. No one, not even she, knows of her lineage.
