

St Helena
Government

Central Support Service

Strategy and Delivery Plan April 2022 – March 2025

Version: Three

Updated: September 2022

Prepared by: Central Support Service Senior Management Team

Version 4 Endorsed by Chief Minister

1. Our Vision, Mission and Values:

Our Vision: St Helena, a great place to live, learn, work, visit and invest

Our Mission: Improve the lives of all within our community and help the island thrive

Our Values:

- **Fairness** We act as role models and have fair and consistent standards. We champion equality, inclusion and respect.
- **Integrity** We communicate openly and we are honest and accountable
- **Teamwork** We work together and we support each other

2. The role of the Central Support Service:

The role of the Central Support Service (CSS) is to provide support to the five Public Service Portfolio Directorates as well as the Executive and Legislative Councils, and to provide services to the public. The support services are wide ranging and pertinent to ongoing Public Service delivery, high level decision making, accountability, compliance, and good public relations. Following the Fit for the Future programme to review the Public Service HR, Finance and Administration functions during 2020 and 2021, it was recommended that a centralised administration service be set up to further support the Portfolio Directorates. This would in theory be similar to the way in which the centralised Finance and Human Resources functions were to operate. The main difference with the Central Administration function, is that the staff are physically based across the five Portfolio Directorates and supports service delivery within the Central Support Service itself. The new centralised administration function allows for the establishment of a professional administration service which should result in more flexible working as well as efficiencies being achieved in the longer term. The Central Administration function will also continue to provide support to Plantation House.

We are outcome and people focused. We will work with Portfolios with a view to ensuring that they are provided with the necessary tools and capability to deliver their respective services in an effective and efficient manner. We will engage with employees to ensure their development and wellbeing is maximised, as we strive to build a Public Service that is fit for the future. We will also seek to ensure the provision of adequate resources for the Executive and Legislative Councils to enable these bodies to carry out their respective duties, bearing in mind the prevailing budgetary constraints.

Our services include ICT, Administration, Internal and External Communications, Statistics, HR and Organisational Development, Transport, Information Management (including the activities of the SHG Archives service), Performance and Risk Management, Policy and Planning, and Compliance.

We also monitor and report on the delivery of the Island's 10-year Plan 2017-2027.

CSS works to various Ordinances including the Census Ordinance, 1986, Statistics Ordinance, 2000, Employment Rights Ordinance, 2010, Elections Ordinance, 2009 and the Legislative Council (Remuneration and Allowances) Ordinance, 2010, as well as the St Helena, Ascension and Tristan da Cunha Constitution Order, 2009 and the 2021 Constitution Amendment Order.

3. What we have achieved so far:

CSS lies at the heart of Government. It plays a fundamental part in the Public Service planning, training and development, service delivery, good governance and decision making process and works closely with the five Portfolio Directorates to manage and drive the business of Government. Its distinct component parts have their own areas of responsibility but complement each other in our quest to deliver agreed priorities and ultimately, the overarching Goals and Strategic Objectives.

The ICT Service

The ICT Service primary objectives are:

- To provide end-users with appropriate means to access the organisation's ICT Services, particularly through integrated file sharing systems
- Maintain business satisfaction and confidence in ICT through effective and efficient delivery and support of agreed ICT services
- Minimise the impact of service outages in terms of daily business activities
- Ensure that access to agreed ICT Services is only provided to those authorised to receive those services

In addition, it is imperative that the ICT Support Service continues to ensure that fit for purpose IT systems are in place to innovate and transform service delivery securely and sustainably. Robust, accessible, and affordable connectivity networks and storage are integral to service provision and to this end, a comprehensive Remote Desktop Service Farm (RDSF) was recently procured to improve the availability and scalability of our Remote Desktop Service (RDS) deployment. In addition to being able to accommodate additional users, the increased storage capacity will ensure that SHG's data is kept safe and secure, which is one of the key principles of the proposed Data Protection Legislation.

Ageing servers are continuously being replaced with greener technology that aims to seamlessly and securely divide SHG's data centre components into different resource pools, depending on different operational parameters like energy consumption ratio, utilisation ratio and workloads. The greener framework also enables the implementation of green metrics like power usage effectiveness (PUE), data centre effectiveness and server virtualisation. Server consolidation and virtualisation have also resulted in reduced hardware costs, improved server provisioning and deployment, better disaster recovery solutions, efficient and economic use of energy, and increased staff productivity.

The IT Support Team played an instrumental role in the landing of the St Helena's branch of Google's new submarine cable system, which will connect Africa and Europe. This strategically important project is expected to bring many benefits to the Island to include encouraging investment opportunities in the construction of satellite ground stations on St Helena and increased use of internet-based technology and delivery through, for example, digital financial transactions.

The Press Office coordinates all of SHG's external communications activity and plays an important role in keeping the public and other stakeholders informed about what is happening in SHG. They are responsible for building and maintaining relationships and managing the organisation's reputation. The Press Office supports the organisation's openness and transparency agenda with year-on-year increases in its communications output through, for example, the number of press releases and public announcements issued and the number of digital updates necessary. Due to the enhanced level of digital output and, as part of the restructure of the Office, a new Digital Media Officer joined the team in April 2021 to further develop this area. As a result there has been an increase in engagement and followers across our digital channels. Demand for filming work within the organisation has increased and now with the capacity to offer filming support and work, the team has expanded its filming output. This was most notable during the run-up to the General Election 2021 when various films were shown on local TV around important dates and information on the General Election and the new ministerial system, and interviews with candidates. The Fibre Optic Cable Project and other key projects under the Economic Development Investment Programme are also being filmed both for record and publicity purposes.

The team played an instrumental role in the communications work needed for the General Election 2021 and the move to a new ministerial government.

As part of the Island's COVID-19 response, the Press Office led on the compiling and rolling out of successful information campaigns around the move to Home Quarantine and the Vaccination Programme. A dedicated COVID-19 Communications Officer within the team, leads on all COVID-19 communications for the organisation working very closely with Health and other key stakeholders.

The team continues to implement the actions from the 2019 Public Opinion Survey including:

- Producing more good news stories and promoting local achievements
- Celebrating staff and student achievements
- Providing more information on directorates' work towards achieving our national goals, strategic objectives and policy priorities
- Publicising service times/opening hours on the website
- Producing weekly Police Reports
- Making more use of radio
- Making SHG information easier to understand and accessible by all
- Making more use of infographics
- Having in place a user-friendly and attractive website
- Providing more images with press releases
- Using posters for awareness raising
- Holding more district meetings with government officials
- Producing more user-friendly reports

Subject to securing funding, a follow-up Survey will be carried out in 2022/23.

The intranet, established by the Press Office in 2019, also continues to be an important one-stop shop for all internal news. The intranet is currently being managed by HR but the intention is for this to be the responsibility of a new Internal Communications Officer who will be recruited to join the Communications team.

Team members are working towards qualifications in the communications field. It is hoped that the final phase in the restructure of the Press Office into a corporate communications function comprising Press, Digital, Internal and Marketing communications can be completed during this period in order to enhance, strengthen and further professionalise communication, both internally and externally.

Recently the team has introduced measurement and analysis into their workload and now regularly report statistics across the official digital channels as well as analysis of the 'public conversation' and local media activity. This is helping the organisation to evaluate its output and if necessary tailor its communications to effectively reach all of its audiences. The Press Office will continue to push for the implementation of an SHG 'Send to all' text message service which will send out text message updates on important announcements to a subscription list.

Policy, Planning and Performance Management is concerned with the SHG annual strategic planning process, policy development and monitoring and reporting on service delivery against performance indicators. We continue to administer the SHG performance management system with performance indicators for all of the portfolios being monitored centrally, along with a set of key performance

indicators as outlined in the SHG Strategy. Strategic Policy Planning Workshops were held with Directors and their senior management team members following which a Strategic Policy Toolbox was developed and posted on the intranet. The central database of all SHG policies continued to be developed in liaison with Portfolio Directorates. The 10-Year Plan was reviewed and an updated version was published in August 2021, summarising progress against delivery over the period January 2017 to March 2021. Progress against the delivery of the 10-Year Plan 2017 – 2027, the Sustainable Economic Development Plan (SEDP) 2018-2028 and the Labour Market Strategy (LMS) continued to be tracked, resulting in the publication of six monthly reports. Going forward, progress against the delivery of the SEDP and the LMS will be tracked/published by the Sustainable Development Team in the Treasury, Infrastructure and Sustainable Development Portfolio.

The Statistics Office is responsible for collecting, analysing and publishing statistical data, which is used to inform planning and policy decisions both by government and the public. In February 2021 the Statistics Office conducted a full Population and Housing Census, to provide an important baseline for policy and planning now that the Airport is fully operational. Key results from the Census were made available in May 2021 with the full report (including separate file for tables in excel format) being published in July 2021. Working with the Strategic and Social Policy Coordinator, the Statistics Office has supported the reformulation of the Minimum Income Standard, which will now be used to inform the Minimum Wage rather than Income Related Benefit and Basic Island Pension rates. Estimates of inflation rates are calculated and published every quarter, within three weeks of the end of the quarter, and population estimates and estimates of arrivals and departures – with over 100 indicators – are now published every month, within three weeks of the receipt of data. A major achievement has been an improved GDP deflator methodology and source data improvements for the estimation and publication of Gross Domestic Product. New estimates for 2019/20 were released in September 2021. Statistics of the value of imports are now processed using data collected via the ASYCUDA system, which has improved accuracy, timeliness, and efficiency and enabled estimates to be published three months after the end of the previous financial year. In addition, the statistics data management and dissemination systems have been completely overhauled, with an ‘on-line first’ policy to publish data that can be more easily accessed by users. Since September 2020, weekly COVID data updates have been produced as an informative tool both for the public (updates published on the SHG website) and also for SHG officials. Over the course of the 2 years, the scope and format of these updates has been amended to ensure they maintain relevance and are fit for purpose.

Information Management Services has continued to administer and manage the official Complaints Procedure, as well as the ‘Report it Sort It’ service which attracted over 400 reports since the service began in 2015. Steady progress has been made with digitising the Government Archives collection and an Archives Record Collection policy has been developed to guide and inform the collection of archival material. An ongoing project sponsored by the British Library Endangered Archives Programme is enabling the digitisation of the East India Company records which comprises over 350 volumes, the earliest of which dates from 1673. The project commenced in September 2021 and is scheduled to be completed in 2 years.

The SHG Code of Practice for Public Access to SHG Information, which has been in place since September 2014, offers a central point of enquiry for the public to request information from SHG that is not already available by other means. The system continues to work well and a total of 116 requests for information have been received since the Code of Practice was introduced in September 2014. A recently approved 'Public Access to Government Information' Bill was enacted by the Legislative Council in June 2021 and associated Regulations and guidance are being prepared in advance of the new legislation being brought into force. The legislation provides for the appointment of an Information officer and it is likely that the individual appointed to that role will be a member of staff from within the Central Support Service.

An Information Management Framework has been developed for the Public Service Portfolios, as well as a number of Corporate Information Management policies having been developed to ensure appropriate management of the organisation's information, with an Information Retention and Disposal Policy developed for the administration function of the Central Support Service. Timely arrangement of statutory appointments, drafting and publication of Gazette Notices and preparation of Legal Notices as well as Ordinances have continued to be carried out by the CSS.

Council Support Services continues to support the work of the Executive and Legislative Councils through the provision of secretarial support to both bodies, as well as the Economic Development, Finance and Social and Community Development Council Committees and the office of Speaker of the Legislative Council. Formal meetings of the Legislative Council are arranged, to include liaison with senior officials for lines of reply to Questions and Motions, preparing all the required documentation and ensuring that all business is submitted and dealt with in compliance with the requirements set out in the Legislative Council Standing Orders. The section continues to be responsible for ensuring the publication and distribution of Legal Notices and Ordinances. Council support includes the provision of secretarial support to the Public Accounts Committee by arranging meetings – both formal and informal - as well as report writing. The annual updating and publication of the Register of Electors continues to focus on ensuring the information within the Register is as accurate as possible. A successful General Election was held in October 2021 and was the first under the new Ministerial form of Government which commenced on 25 October 2021, following the outcome of the Consultative Poll held in March 2021, which sought the views of the electorate with regard to options for Governance reform. Under the new system of governance, five Ministers are working alongside the Portfolio Directors, with seven non-Ministers taking on the scrutiny function via 2 Scrutiny Committees, including the continuation of the Public Accounts Committee function.

The local branch of the Commonwealth Parliamentary Association (CPA) was supported by the Commonwealth Parliamentary Association Headquarters International Secretariat in carrying out a self-assessment of how the legislature meets the 'Recommended Benchmarks for Democratic Legislatures, 2018'. The subsequent report made various recommendations for the St Helena Legislative Council to consider and a working group comprising the Hon Speaker, an Elected Member and the Clerk of Councils has been formed to consider the recommendations.

The CPA UK Branch carried out an 'Elections Expert Mission' whilst the October 2021 General Election preparation was ongoing and the report containing twelve recommendations was received in January 2022. These recommendations are also being considered by a small working group of Elected Members who are not holding a Ministerial office.

Central **Administration Services** provide the admin support function for all Portfolios. Duties include processing supplier payments, temporary employees' salary data; minute taking; reception duties; administration of petty cash and local purchase orders. The admin function also continues to lead on organising national events such as the annual Remembrance Sunday service and Inauguration ceremonies for new Governors as well as arranging statutory appointments for Acting Governors. Accounting support continues to be provided to the various component parts of CSS through preparation and routine monitoring of the Directorate's annual recurrent budget including that of the SHG UK Representative's Office. Management of divested services such as SHG Cleaning, Public Transport and Swimming Pool management has been ongoing and compilation of the Directorate's annual Strategy and Delivery Plan has been facilitated.

We are also responsible for arranging statutory Appointments on behalf of the Governor; processing and publishing legislation and Government Gazette Notices; preparation of annual reports to the International Labour Organisation regarding meeting of obligations in respect of various Conventions which have been extended to St Helena; annual updating of the Register of Electors; organising Elections in accordance with the Elections Ordinance 2099 and induction and training programmes for newly Elected Members; supporting the Executive Council; organising formal meetings of the Legislative Council, Commonwealth Parliamentary Association business; the day to day running of the Legislative Council office; management of the 'Report it, Sort It' service; dealing with requests for information submitted in accordance with the Code of Practice for Access to SHG Information; and administration of the official SHG complaints procedure.

HR and Organisation Development (OD) continues to build on key achievements over the last three years and maintain high standards that have been set. As well as developing a highly qualified team with members now CIPD (Chartered Institute of Personnel and Development) qualified to Level 7, Level 5 or Level 3 depending on their role. HR and OD has also been responsible for the:

- Development of a St Helena Graduate Scheme
- Development of a Five-Year Workforce Plan
- Roll out of a Core Leadership Programme
- Roll out of Mental Health Awareness Training for all Senior Managers plus the introduction of TRiM Practitioners
- Creation of a Coaching and Mentoring Network
- Development of a Values and Behaviour Framework
- Introduction of 12 Trained and Accredited Mediators

- Reintroduction of a Corporate Induction Programme
- Development and Launch of a HR Networking Forum
- Creation of an HR and Organisational Development Intranet Site
- Development of a Centralised HR Delivery Structure and Introduction of HR Business Partners
- Development of the 2020 to 2023 Prospectus for Change
- Creation of the Employee Representative Committee and Partnership Forum
- Development of a Leadership Competency Framework
- Introduction of the first Future Leaders Programme
- Introduction of Career Progression Job Cadres
- Succession Plans to localise posts
- A Training Needs Analysis process
- Provision of a Staff Handbook to all Public Service employees
- Introduction of a Continuous Improvement Programme and Trained and Accredited Change Champions

Transport Service continues to manage the SHG vehicle fleet, ensuring the maintenance and provision of suitable vehicles across the Public Service, on a full cost recovery basis. It also provides a service to the public for the hire of plant and certain equipment where these services are unable to be provided by the private sector.

4. Where we want to be:

Central Support Service will strive for excellence in service delivery and will build on achievements made to date. In this regard, we will continue to engage with internal and external stakeholders to keep abreast of advances in technology and environmental changes; we will respond to our customers' needs with a view to providing optimum support, information and enabling services; and, we will proactively manage and lead the business of Government.

The next three year period will see the lighting of the fibre optic marine cable with which will come a host of opportunities. An upgraded Public Service ICT infrastructure to support high speed bandwidth transmissions will be driving and enabling innovative and smarter ways of working across the Public Service and Government. There will be improved collaboration across Portfolio Directorates and more information and knowledge sharing.

The MTEF process will be fully embedded following year on year lesson learning. Alignment of portfolio priorities, 10 Year Goals and Strategic Objectives with the UN Sustainable Development Goals will see St Helena well placed to secure external funding. The policy making process will be better supported, with SHG policies better captured on the central policy database. A more robust performance management system will capture data to better measure progress against the delivery of strategic goals and objectives.

Risk management will be fully embedded and used to support service delivery. Good Governance Principles will be reflected in the way we manage and deliver the business of Government in the public interest and, systems and processes are in place to inform Compliance reporting.

Internal and external communications with reliable and timely statistical publications will meet the needs of Public Service employees, private sector and the general public whilst government information is properly managed with supporting policies and systems in place. And SHG's openness and transparency agenda is further underpinned by Data Protection policy/legislation.

Political reform will see more accountability and streamlined decision making processes as we work to achieve our Strategic goals and objectives. CSS will ensure the provision of a support service to enable the reformed political system to operate at its best.

Policies and procedures are in place for maintaining vehicles in a safe and efficient operating condition, for minimising vehicle downtime, for increasing user satisfaction and controlling maintenance costs. The use of electric vehicles will be explored with a view to reducing carbon emissions as well as reducing operational costs for the Public Service.

We recognise and value our people as our most important asset in achieving our Policy Priorities, Strategic Objectives and National Goals. We also acknowledge that there are no facts about the future and the world, and that the world of work is transforming at such a fast rate that the Organisation for Economic Co-Operation and Development estimates that 65% of children going into primary education now will go into jobs that don't yet exist.

Our HR and OD Strategy will show how we build capability and capacity within the organisation to innovate, manage uncertainty, ambiguity and transformation, develop new skills and embrace the opportunities that come with digital transformation. Our Vision, Mission and Values will be embedded into all people processes; and, our organisation will be flexible and agile with employee engagement and wellbeing at the fore of what we do. Public Services will be delivered by an inclusive and diverse workforce where achievements and good performance are rewarded and recognised, where equal opportunities prevail and where barriers/silo working are non-existent.

We aim to have the right people with the right skills and values in place at the right time with exceptional leaders who champion our culture, live our values and facilitate high performance in a developmental, collaborative, inclusive and supportive working environment.

5. How we will achieve this:

Central Support Service has six priorities which will support the delivery of our Strategic Goals and the achievement of our Strategic Objectives and Policy Priorities and meet the needs of the communities we serve. Each element of activity will be aligned to at least one of the Strategic Goals and all our activity will be underpinned by our values.

| | | | |
|---|---|---|---|
| <p>PRIORITY ONE</p> <p>Drive St Helena Government's Digital Transformation Agenda</p> | <p>PRIORITY TWO</p> <p>Ensure effective corporate governance arrangements are in place to achieve St Helena's overarching goals and objectives</p> | <p>PRIORITY THREE</p> <p>Encourage and facilitate openness and transparency across the Public Service and Government</p> | <p>PRIORITY FOUR</p> <p>Enable and support policy makers, portfolios and the public to make better decisions</p> |
| <p>PRIORITY FIVE</p> <p>Support the development of the Public Service through the delivery of an effective People Strategy</p> | <p>PRIORITY SIX</p> <p>Ensure the provision of an effective and efficient vehicle hire service</p> | | |

Each of these priorities cover a range of Central Support Service activities which are set out in more detail in the Delivery Plan in Section 6.

The diagram below shows how each Priority is linked to our Strategic Objectives and Strategic Goals (and to our Policy Priorities where applicable):

| Central Support Service Priorities | | Policy Priorities | | Strategic Objectives | | National Goals |
|--|--|--|--|---|--|--|
| <p>1. Drive St Helena Government's Digital Transformation Agenda</p> | | <p>We will ensure that SHG's openness and transparency agenda is further enhanced and underpinned by Data Protection legislation</p> <p>To ensure we have the appropriate legislation in place to protect the community from cyber threats</p> | | <p>3. Implement supporting policies and legislation to ensure robust and resilient ICT infrastructure is in place</p> | | <p>1. EFFECTIVE INFRASTRUCTURE</p> |
| <p>2. Ensure effective corporate governance arrangements are in place to achieve St Helena's overarching goals and objectives</p> | | <p>We will continue to ensure compliance with our statutory governance obligations in relation to their stewardship and delivery of overarching goals and objectives</p> <p>We will amend our Elections legislation to take account of recommendations by the Election Expert Mission</p> <p>We will continue to embed risk management in a systematic way to inform decision making and support the achievement of our goals and objectives</p> | | <p>29. Strengthen public service governance and organisational structures</p> | | <p>6. EFFECTIVE, EFFICIENT AND ACCOUNTABLE PUBLIC SECTOR</p> |

| | | | | | |
|---|--|--|---|--|---|
| <p>3. Encourage and facilitate openness and transparency across the Public Service and Government</p> | | <p>We will ensure communications are aligned to our goals and objectives and to embed a corporate attitude and sense of stewardship in terms of timely and accurate release of information</p> | | | <p>6. EFFECTIVE, EFFICIENT AND ACCOUNTABLE PUBLIC SECTOR</p> |
| <p>4. Enable and support policy makers, portfolios and the public to make better decisions</p> | | <p>We will continue to develop our strategic policies in line with best practice as set out in our Strategic Policy Framework. We will implement lesson learning as part of this process and ongoing review.</p> | | | <p>6. EFFECTIVE, EFFICIENT AND ACCOUNTABLE PUBLIC SECTOR</p> |
| <p>5. Support the development of the Public Service through the delivery of an effective People Strategy</p> | | <p>We want to address skills gaps by implementing policies to, attract, grow and retain the working age population.</p> <p>We want to give our school leavers the opportunity to learn, train and develop to enable them to gain employment on island and to grow and develop in their chosen careers.</p> <p>We will improve the experience of our customers and employees, identify efficiencies and better ways of working; and position ourselves to meet challenges that lie ahead.</p> | <p>8. Address skills gaps by valuing the local workforce and attracting, growing and retaining the working age population.</p> <p>29. Strengthen public service governance and organisational structures.</p> | | <p>2. ALTOGETHER BETTER FOR CHILDREN AND YOUNG PEOPLE</p> <p>5. ALTOGETHER HEALTHIER</p> <p>6. EFFECTIVE, EFFICIENT AND ACCOUNTABLE PUBLIC SECTOR</p> |

| | | | | | |
|--|--|---|--|--|---|
| <p>6. Ensure the provision of an effective and efficient vehicle hire service</p> | | <p>We will implement policies which will facilitate all our energy being generated (over time) using renewable sources reducing our reliance on fossil fuels.</p> | | <p>SO. 25. Continuously enhance efforts to develop, protect, conserve and promote sustainable use of our environment</p> <p>SO 32. Ensure assets are protected for the good of all</p> | <p>1. EFFECTIVE INFRASTRUCTURE</p> <p>2. ALTOGETHER GREENER</p> |
|--|--|---|--|--|---|

6. Central Support Service Delivery Plan

| CSS Priority One: Drive St Helena Government's Digital Transformation Agenda | | | | | | |
|--|---------------------------|---|------------------------------------|-------------|-------------|-------------|
| Action | Owner | Performance Indicator | Baseline | Target | | |
| | | | | 2022/23 | 2023/24 | 2024/25 |
| <p>1.1 Replacement of all legacy systems and software, which presents a data security risk to the organisation.</p> | <p>IT Section Manager</p> | <p>1.1 Replacement of all Windows 7 and Windows Server 2008 devices, which pose an immediate threat to SHG.</p> | <p>15% replaced during 2021/22</p> | <p>30%</p> | <p>55%</p> | <p>80%</p> |
| <p>1.2 Improve our internal communications systems, which will provide scope for closer cooperation through Information sharing and other forms of communications, which are capable of supporting</p> | <p>IT Section Manager</p> | <p>1.2 Planning and deployment of Exchange 2016.</p> | <p>80%</p> | <p>95%%</p> | <p>100%</p> | <p>100%</p> |

| | | | | | | |
|---|--------------------|---|-----------------|-----|-----|------|
| physical and logical resources. | | | | | | |
| 1.3 Replace all aging Thin Client Servers with technologies that will support the current architecture and contribute towards the sustainability of social development and economic growth. | IT Section Manager | 1.3 Reduce the carbon footprint associated with IT equipment. | 25% | 40% | 65% | 100% |
| 1.4 Design and install a robust ICT Security Information and Event Management system communication systems, which will contribute towards the sustainability of social development and economic growth. | IT Section Manager | 1.4 The installation and implementation of critical communication systems. | 60% | 70% | 95% | 100% |
| 1.5 Establish and effectively communicate a cyber-security policy. | IT Section Manager | 1.5 Develop and communicate a cyber-security policy, which will outline guidelines and provisions for preserving the security of SHG's data and technological infrastructure. | 2021-2022 – 20% | 45% | 95% | 100% |
| 1.6 Development of a removable media policy for all critical systems and essential services. | IT Section Manager | 1.6 Develop and implement a removal media policy, which will protect the organisation against loss, | 0% 2021-2022 | 45% | 90% | 100% |

| | | | | | | |
|--|--------------------|---|--------------|-----|-----|------|
| | | damage, abuse and misuse of information. | | | | |
| 1.7 Establish an effective and common patching regime across the organisation. | IT Section Manager | 1.7 Implement a patch management regime, which will allow for the processing and distribution of software updates across the organisation. | 0% 2021-2022 | 20% | 40% | 60% |
| 1.8 Adopt a minimum common cyber approach across the organisation. | IT Section Manager | 1.8 Reduce the organisation's exposure to cyber-attacks by adopting a common cyber measure across the organisation. | 0% 2021-2022 | 20% | 85% | 100% |
| 1.9 Implementation of a cyber-security awareness programme. | IT Section Manager | 1.9 Implement a cyber-security awareness training programme that will address issues such as data privacy, information security and cyber security. | 0% 2021-2022 | 20% | 50% | 70% |

CSS Priority Two: Ensure effective corporate governance arrangements are in place to achieve St Helena's overarching goals and objectives

| Action | Owner | Performance Indicator | Baseline | Target | | |
|--|------------------------|--|-------------------------------------|----------------------------------|----------------------------------|----------------------------------|
| | | | | 2022/23 | 2023/24 | 2024/25 |
| 2.1 Review, update, issue and roll out MTEF planning and budgeting guidelines/templates in liaison with Corporate HR and Finance | Deputy Chief Secretary | 2.1 Develop and issue MTEF guidelines to ensure Directorates deliver | Guidelines issued 5 Sept in 2018/19 | Guidelines to issue in September | Guidelines to issue in September | Guidelines to issue in September |

| | | | | | | |
|--|---------------------|--|---|---|---|---|
| | | overarching goals and strategic objectives | | | | |
| 2.2 Review and challenge progress reports from Directorates; collate returns and compile quarterly reports to SLT, Audit and Risk Committee, Councillors, and FCDO | Performance Manager | 2.2 Performance and risk management reports presented to SLT, with risk management reports being presented to Audit and Risk Committee as well, on quarterly/half-yearly basis | Reports published quarterly/half-yearly | Performance and risk management reports published by end of each month following respective quarter | Performance and risk management reports published by end of each month following respective quarter | Performance and risk management reports published by end of each month following respective quarter |
| 2.3 Update and maintain central policy registry in liaison with Directorates | Performance Manager | 2.3 Liaison with directors on status of policies relevant to their directorates | Reminders sent to directorates on ad hoc basis | Quarterly communication with directorates | Quarterly communication with directorates | Quarterly communication with directorates |
| 2.4 Engage with Directorates and stakeholders responsible for implementing revised 10 Year Plan | Performance Manager | 2.4 Implementation of revised 10 year plan with actions tracked and published | 6-monthly progress reports compiled and published | 6-monthly reports compiled and published | 6-monthly reports compiled and published | 6-monthly reports compiled and published |

| | | | | | | |
|--|------------------------|--|---|---|---|---|
| 2.5 Develop and maintain system/process to inform compliance reporting | Deputy Chief Secretary | 2.5 Compliance Reports compiled and submitted to A&R Committee | 2019/20 - 2 x qtrly Compliance reports covering statutory appointments only | Communication with Directors issued during first month of each quarter Report with increased coverage submitted to IA by end of first month following each quarter | Communication with Directors issued during first month of each quarter Report with increased coverage submitted to IA by end of first month following each quarter | Communication with Directors issued during first month of each quarter Report with increased coverage submitted to IA by end of first month following each quarter |
|--|------------------------|--|---|---|---|---|

CSS Priority Three: Encourage and facilitate openness and transparency across the Public Service and Government

| Action | Owner | Performance Indicator | Baseline | Target | | |
|---|--------------|---|--|---|---|---|
| | | | | 2022/23 | 2023/24 | 2024/25 |

8. Workforce plan:

The Central Support Service recognises that our success in delivering our Strategic Goals and achieving our Strategic Objectives and Policy Priorities depends on having the right number of people with the right skills, experiences, and competencies in the right jobs at the right time.

Our 5-Year Workforce (Action) Plan is an internal document which underpins this Strategy and Delivery Plan.

9. Risk Management and Mitigation

The Central Support Service Risk Register is an internal document which is shown as an Appendix to this Strategy and Delivery Plan.
